Maskinplan nr. 84763 - onsdag

Detailed description: This is a line graph with 'N/Nf' on the vertical axis and 'D/Df' on the horizontal axis. Both axes have tick marks at 0.0, 0.2, 0.4, 0.6, 0.8, and 1.0. A horizontal dashed line is drawn across the graph at a value of 1.0 on the vertical axis. Two data series are plotted: the upper series consists of open circles connected by a solid line, and the lower series consists of solid circles connected by a dashed line. The upper curve starts at approximately (0.05, 0.05), rises to a peak of about 0.85 at D/Df ≈ 0.4, and then gradually declines. The lower curve starts at approximately (0.05, 0.05), rises more steeply to a peak of about 0.95 at D/Df ≈ 0.2, and then declines.

A geological cross-section diagram showing various rock units and their thicknesses in meters. The units from top to bottom are:

- Fh (171 m)
- Ab (50 m)
- Ar (20 m)
- D (7 m)
- Fh (105 m)
- Ar (143 m)
- Fh (168 m)
- Ar (594 m)
- Fh (3139 m)
